Reverse the Stream

PRACTICE-07_LOOPS-ARR

This question requires the use of arrays.

You will be given a non-negative integer N followed by N integers, separated by a space. We assure you that N will be less than or equal to 20. You have to print the stream in reverse with spaces between two elements, there should be no space after the last element.

 **Start Solving!** (</editor/practice/6107>)
