```c
#include<stdio.h>

int main(){
    int d;
    scanf("%d",&d);

    // Illegal date
    if((d < 4)||(d > 13))
        printf("Outside schedule!");

    // Make good use of fall-through
    switch(d){
        case 4:
        case 7:
        case 10: printf("The Phantom Menace"); break;
        case 5:
        case 11: printf("Attack of the Clones"); break;
        case 6:
        case 8:
        case 9:
        case 12: printf("Revenge of the Sith"); break;
        case 13: printf("A New Hope"); break;
    }
    return 0;
}
```
